

PREVENTION

Protection that delivers the minimum level of security for every business

- AI-driven next generation anti-virus
- 24/7 threat monitoring
- 8:30am - 5pm local time support
- Rollback feature protection

EDUCATION

Strengthen your first line of defense with systematic training for your entire business

- Consistent training keeps security top of mind
- Build awareness and learn to identify and avoid threats before they become incidents
- Phishing tests ensure staff stays vigilant at all times

ADVANCED RECOVERY

Protect against the high cost of data loss

- Regular backups help protect against ransomware

Uncomplicated, Scalable Security Solution that Grows with Your Business

Go beyond reactive traditional anti-virus and step into the world of advanced, enterprise-level cybersecurity protection. With Swizznet at the helm, your firm will get the most sophisticated and intelligent data security protection for today's flexible workforce, without adding to your IT resource burden.

Security Essentials | PREVENTION

- Turnkey Solution: Includes deployment, configuration and monitoring, as well as incident response and rollback
- Reduces IT burden
- 24/7 monitoring

Security Assure | PREVENTION + EDUCATION

- Cybersecurity awareness training includes social engineering simulations, testing and reporting

Security Elite | PREVENTION, EDUCATION + ADVANCED RECOVERY

- Protect against the high cost of data loss
- Ransomware protection through backup
- Fully recoverable copies of your business data in GSuite or O365

Swizznet's EDR Solution for Accountants and Small Business

We've simplified endpoint security for you. Pick from three convenient packages to get you started with protecting your business data with enterprise-grade security
